

CHATGPT PROMPTS FOR SAAS FOUNDERS

[HTTPS://DEV-ROAST-APP.VERCELAPP](https://dev-roast-app.vercelapp)

Introduction

SaaS founders waste time on guesswork.

Bad ideas, weak positioning, messy onboarding, low conversions.

AI does not replace strategy, but it compresses thinking time.

This PDF gives you 60 high-impact ChatGPT prompts that SaaS founders can use to:

- Validate ideas
- Craft positioning
- Write landing pages
- Improve onboarding
- Drive growth

These prompts are designed for real SaaS businesses, not theory.

Section 1: SaaS Idea Validation Prompts

- Act as a SaaS market analyst. Analyze this idea and identify real-world demand, risks, and opportunities: [idea].
- Validate this SaaS idea for US and EU markets. Identify ICP, pain points, and buying intent.
- List existing competitors for this SaaS idea and highlight gaps they are not solving.
- Identify whether this problem is painful enough for users to pay monthly for a solution.
- Suggest 3 SaaS pricing models suitable for this product and target audience.
- Act as a startup advisor. Tell me whether this idea is better as SaaS, tool, or feature.
- Generate realistic MVP feature sets to test this idea quickly.
- Identify industries most likely to adopt this SaaS first.
- Predict churn risks for this SaaS idea and how to reduce them early.
- Analyze if this SaaS should target SMBs, startups, or enterprises and why.

Section 4: User Onboarding & Retention Prompts

1. Design a simple onboarding flow for new SaaS users.
2. Write welcome email copy for new SaaS signups.
3. Create in-app onboarding messages that reduce confusion.
4. Generate tooltips text for first-time users.
5. Write activation-focused onboarding copy.
6. Identify friction points in this onboarding flow and fix them.
7. Create churn-prevention email copy for inactive users.
8. Generate onboarding copy for a freemium SaaS model.
9. Write upgrade prompts that feel helpful, not pushy.
10. Improve onboarding UX messaging for non-technical users.

Section 5: Growth, Marketing & Scaling Prompts

1. Act as a SaaS growth strategist. Suggest acquisition channels for this product.
2. Generate content ideas for SaaS SEO and blog growth.
3. Create LinkedIn content ideas for SaaS founders.
4. Write cold outreach email copy for B2B SaaS sales.
5. Generate partnership ideas for SaaS growth.
6. Create SaaS referral program copy.
7. Suggest retention strategies for early-stage SaaS startups.
8. Generate feature announcement copy for SaaS updates.
9. Create SaaS launch messaging for Product Hunt.
10. Analyze growth bottlenecks and suggest solutions for this SaaS.

Bonus: Founder Mindset & Strategy Prompts

- Act as a SaaS mentor. What should I focus on at this stage of my startup?
- Analyze my SaaS roadmap and suggest priorities.
- Help me decide between adding features or improving retention.
- Identify metrics I should track weekly for SaaS growth.
- Generate OKRs for a SaaS startup at my current stage.
- Analyze why users may not convert and suggest fixes.
- Help me communicate vision clearly to my team.
- Suggest ways to reduce SaaS operational complexity.
- Analyze if I should pivot or double down on this product.
- Give strategic advice for scaling this SaaS sustainably.

How to Use These Prompts

- Replace brackets with your SaaS details
- Use prompts iteratively, not once
- Refine outputs instead of copying blindly
- Combine insights with real user feedback

AI works best when guided by clear intent.

Final Note

SaaS success is not about working harder.

It is about thinking better and executing faster.

Use these prompts to:

- Avoid bad decisions
- Sharpen clarity
- Build with confidence
